

COMPANY OVERVIEW

We are an industrial manufacturing company that designs, engineers, casts and machines OEM replacement/wear parts as well as unique specialty parts in our foundry and machine shop for the industrial market.

OUR MISSION

To manufacture the highest quality parts from cobalt based alloys, nickel based alloys, stainless steel, duplex and the like, on time, every time!

OUR HISTORY & VALUES

Over 42 years of manufacturing the highest quality alloy components & parts with skilled craftsmen and responsive customer service.

IN-HOUSE CAPABILITIES

- **Foundry:** 5 furnaces
- **Process Engineering:** Solid Modeling, Manufacturing Drawings
- **Patterns:** Manufactured In-house
- **Casting:** Sand & Centrifugal
- **CNC Machining:** Lathes, Mills, EDM
- **Manual Machining:** Lathes, Mills, Surface Grinder
- **Welding:** Qualified, Overlay, Robotic PTA
- **Broaching**
- **Heat Treating:** Batch furnace & Induction

TRUSTED BY CUSTOMERS

- Polymer / Elastomer
- Plastics
- Chemical
- Valve
- Oil & Gas
- Rubber
- Galvanized Steel
- Machining
- Aerospace/Aviation
- Material Handling
- Power Generation

REPLACEMENT PART APPLICATIONS

- Valves
- Plastic Extrusion Machinery
- Extrusion / Dewatering / Drying
- Extruder Barrel Repairs
- O&G Components/Parts
- Chemical Processing Equipment
- Power Generation
- Steel Galvanizing Equipment
- Aerospace/Aviation
- Food Processing Equipment
- Hammer Mills
- Material Handling Equipment
